

# Workshop on **ALGEBRAIC COMBINATORICS AND GRAPH THEORY**

Rome, 14-15/09/2020

S.B.A.I. Department, Sapienza Università di Roma

The aim of the workshop is to bring together both experienced and younger researchers to present and discuss new results and possible developments in Algebraic Combinatorics, Graph Theory and related fields.

Topics of interest are (not only limited to):

Algebraic graph theory

Association schemes

Combinatorial designs

Combinatorial matrix theory

Combinatorial representation theory

Enumerative and extremal combinatorics

Finite geometries

Spectral graph theory

## Invited speakers

Eiichi Bannai (Shanghai Jiao Tong University)

Francesco Belardo (University Federico II of Naples)

Tatsuro Ito (Anhui University)

Claudia Malvenuto (Sapienza University of Rome)

Akihiro Munemasa (Tohoku University)

Primož Potočnik (University of Ljubljana)

Hajime Tanaka (Tohoku University)

Yaokun Wu (Shanghai Jiao Tong University)

## Organizing Committee

F. Scarabotti (Sapienza University of Rome)

A. Donno (Niccolò Cusano University of Rome)

D. D'Angeli (Niccolò Cusano University of Rome)

M. Cavaleri (Niccolò Cusano University of Rome)
