

# Workshop on **ALGEBRAIC COMBINATORICS AND GRAPH THEORY**

Rome, 14-15/09/2020

S.B.A.I. Department, Sapienza Università di Roma

The aim of the workshop is to bring together both experienced and younger researchers to present and discuss new results and possible developments in Algebraic Combinatorics, Graph Theory and related fields.

Topics of interest are (not only limited to):

Algebraic graph theory

Combinatorial designs

Combinatorial matrix theory

Extremal combinatorics

Finite geometries

Spectral graph theory

## Invited speakers

Eiichi Bannai (Shangay Jiao Tong University)

Francesco Belardo (University Federico II, Naples)

Tatsuro Ito (Anhui University)

Claudia Malvenuto (Sapienza Università di Roma)

Akihiro Munemasa (Tohoku University)

Hajime Tanaka (Tohoku University)

Yaokun Wu (Shangay Jiao Tong University)

## Organizing Committee

F. Scarabotti (Sapienza Università di Roma)

A. Donno (Università Niccolò Cusano)

D. D'Angeli (Università Niccolò Cusano)

M. Cavaleri (Università Niccolò Cusano)
